

Gregory T. Malsack

2025 Oaklawn Ave

Waukesha, WI 53188

Phone: 262.269.4213 eMail: gmalsack@gmail.com

Objective:

To acquire a permanent position with a strong public or private company that will utilize the skills I have acquired over the last 20 years. Provide room for growth, and an opportunity to continue to increase my knowledge.

Education:

Waukesha North High School. Waukesha, WI 1991

- Here I got a start in minor programming with an instructor that allowed me to use my skills outside of the class curriculum by writing a video game for my class grade. This is also when I, with some assistance from my instructor, wrote my first accounting package for campgrounds.
- Graduated with honors in technical education

Milwaukee Business Training Institute. Milwaukee, WI 1991

- Received hardware and application training on business class IBM compatible computers.
- Skills learned: Building/repairing computers, minor programming in Lotus and WordPerfect, machine language programming, and component level repair.
- Graduated with a Diploma in Computer Electronics.

Micros Systems Inc. Beltsville, MD 1998

- Received technical training on their 8700 system. This is an SCO Unix based restaurant management system.
- Skills learned: Installation, and management of SCO Unix operating system, database programming, SQL scripting language programming, systems interfacing, and 8700 application programming, installation, and training.
- Graduated with certification in 8700 Application and Unix Technology

Micros Systems Inc. Beltsville, MD. 1999

- Received technical training on their 2700 System. This is a DOS/Windows based restaurant management system.
- Skills learned: Programming, installation, and training for the 2700 restaurant management system.
- Graduated with certification in 2700 Application programming

MindLeaders Inc. 2001

- Completed Self Paced MCSE Training Course

Brain Bench Inc. 2001

- Skill Assessment Testing

Professional Career Development Institute. 2004

- Completed course work necessary to acquire a Private Investigator Diploma

Ashworth University 2006

- Completed course work necessary to acquire a Small Business Management Diploma

Digium Inc. 2013

- Completed instructional and course work related to advanced asterisk administration prior to completion of the dCAP exam.

Experience:

- Fox Valley Metrology 2015 - Current
- Information Technology Specialist
 - Responsibilities include complete research, design, develop, implement, and support of company's servers, storage, switches, routers, wan, wireless, vpn, internet connectivity, and VOIP pbx.
 - Company maintains 1 office in Missouri, 1 in Minnesota, and 3 in Wisconsin. All of which I visit on a quarterly basis at a minimum.
- Coastal Acquisitions, LLC. Mobile, AL 2012 - 2015
- Senior Network Administrator
 - Responsibilities include, research, acquisition, design, implementation, and supporting the companies total infrastructure. Including over 40 servers running CentOS, Ubuntu, Windows. VmWare and KVM virtualization technologies. Cisco switching and routing. Linux firewall and vpn endpoints. Cisco wireless equipment. Access control system. Time Clock system. Video surveillance system, Alarm system. As well as interfacing with management staff and supporting the software development team to provide integration between the various systems.
 - Successfully converted their data storage from NAS to SAN, increasing data storage read times from ~100mbps to over 600mbps and write times from ~30mbps to over 120mbps.
 - Successfully implemented a corporate intranet to provide reporting and control of the phone system, access control system, and time clock system. Currently working with our software development team to integrate the system with our CRM package to create a dashboard requested by our sales management staff to display sales figures and call statuses at a glance. All of this integration of the system is being done on a LAMP environment.
- Gregory Malsack Enterprises, LLC. Waukesha, WI 2002 - 2012

Setup and maintained ip packet filtering securities on Linux based firewalls, Efficient Network, and Netopia routers. Exposure to the Perl programming language and cgi scripting processes. Expert in Quick Basic programming language and Yabasic programming on DOS and Linux based systems.

- Cash Register Service Co. Inc. Milwaukee, WI 1994 - 1999
- Hired as field engineer.
 - Duties included field service of Novell, Unix, Concurrent DOS, Windows 95/NT and proprietary Micros networking systems, and standalone cash registers.
 - Promoted to Service Manager (1997)
 - Duties included overseeing service department, continuing to provide service to all customers in the southern territory, and implementing in-house computer network to run windows office products and Unix based accounting system.
 - Promoted to Programming/Installation/Network Administrator (1998)
 - Duties include programming, training, and installation of Micros restaurant management and hotel management systems, Windows NT business accounting networks, and continuing to build our in-house network.
 - Left for desire to get back into corporate computer networking.
- Data Direct Distributors. Waukesha, WI 1994
- Hired as Vice President of Operations.
 - Duties included product purchasing, corporate accounting, product marketing and sales, and minor service on carry-in computers, network builds and bench testing before delivery.
 - Left due to change in income requirements with new family. Company recently purchased and new owner could not offer added income.
- Mega-Byte Computers. Waukesha, WI 1993
- Hired as Service Manager/Sales Representative.
 - Duties included product purchasing, overlooking service department, performing repairs that could not be completed by other technicians, and quoting on sales orders.
 - Left for better offer.
- Dunn's Business Center. Brown Deer, WI 1992 - 1993
- Hired as their Field Service technician.
 - Duties included supporting all customers that had non-carry in service needs. Maintained Novell, Unix, Concurrent DOS Networking systems, and Windows 3.x operating systems. When in the shop I performed factory authorized repairs on Panasonic, Epson, and Star Micronics printers, and building PC for new network installs.
 - Left for better offer.
- Entree Computers. Brookfield, WI 1992
- Subcontracted to install cabling systems for two of there larger sales. Sites consisted of 250 users and 125 users. Pulled, terminated, and tested category 5 computer network cabling and category 3 telephone cabling, installed rack mounted hubs, and converters. Also installed small coaxial runs for smaller remote workgroups.
- Computerized Camping, Waukesha, WI 1991-1992
- Sole-Proprietor
 - Wrote campground accounting package. Regression tested by Lake Arrowhead Campgrounds. Marketed the package upon completion. Unfortunately, I was about 2 years ahead of the curve. I couldn't find anyone interested in putting a computer in a campgrounds. However, about two years later another firm released a shelf package, which seems to have sparked the industry.

Certifications: (in order of acquisition)

- Certification in Computer Electronics

- Master Certification in TCP/IP Name Resolution and WINS
- Master Certification in Managing DNS and TCP/IP
- Master Certification in IIS 4.0 WWW Server
- Master Certification in IIS 4.0 FTP Service
- Master Certification in IIS 4.0 Security
- Certification in Networking Concepts
- Master Certification in Apache 1.3.12 Administration
- Certified Internet Professional - Web Administration - Linux Concentration
- Certification in Unix Administration
- Certified Internet Professional - Web Administration - Unix Concentration
- Certification in TCP/IP Administration
- Certification in Windows NT Server 4.0 Administration
- Certified Internet Professional - Web Administration - NT Concentration
- Certification in Network Security
- Certification in Internet Security
- Certified Internet Professional - Web Administration - Cisco Concentration
- Certification in Cisco Network Support
- Certification in Windows 2000 Server Administration
- Certification in Microsoft Exchange 5.5 Administration
- Certified Internet Professional - Web Administration - Windows 2000 Concentration

- Certification in Red Hat Linux Administration
- Certified Completion of the Bogan 'ACE' School of Sound
- Certification in Information Technology Industry Knowledge
- Wisconsin Licensed Private Investigator
- Certification in Windows 2003 Server Administration
- Certification in Cisco Router Fundamentals
- Digium Certified Asterisk Administrator
- Certified Polycom VOIP Provider
- W3 School HTML Certification
- Digium Certified Asterisk Professional (dCAP)

Accomplishments:

- Single handedly built and entire infrastructure for a 120 person call center in 60 days. Including installation of cabling, racks, cabinets, servers, firewalls, cable and fiber internet connections, Asterisk VOIP phone system, private instant messaging system, security camera system, access control system, file storage system, active directory, group policies, and built initial workstation images, and supported desktop support staff on rolling out the images to existing workstations, and migrating their existing network data to the new infrastructure.
- Single handedly built a new phone system cluster for the same call center when the staff grew to over 240 agents and 4 locations. 2 in Mobile, 1 in Florida, and 1 in Panama City, Panama. Using OpenSIPS to balance the call load across a pool of multiple Asterisk servers sharing the same configuration via NFS and MySQL. Built a web-based management interface for the IT Department to use to manage the system, and web based reporting tools for the Sales and Marketing Departments to use.
- Designed, engineered, and implemented an access control system and time keeping system using IP based RFID readers.
- Invented DynWall. A dynamic IP filter firewall program, which is controlled by e-mail conversations with the firewall.
- Invented N-Sec. A network security appliance secondary to a firewall that tracks traffic for the purpose of investigating computer crimes conducted via the internet.
- Received 2003 National Leadership Award from the NRCC
- Received the 2003 Businessman of the Year Award from the Business Advisory Council.
- Received the 2004 Businessman of the Year Award from the Business Advisory Council.
- Received the 2006 Businessman of the Year Award from the Business Advisory Council.
- Lead developer on LITS IAC. This is an internet access controller for the hospitality industry. System built using base linux and various php and perl programs to control and monitor internet connectivity for wireless guests. Device accepted by IHG (Inter-Continental Hotels Group) as 1 of 6 devices certified for use in their hotels. IHG is the license holder for Holiday Inn, Holiday Inn Express, Staybridge Inn and Suites, and several other name brand hotels.
